Table of Contents: Volume 2 (1990)

Number 1

Rule-based Production Planning in Flexible Manufacturing Systems ..... *Agostino Villa and Sergio Rossetto* 5

Optimal Dispatching of Multipriority Jobs to Two Heterogeneous Workstations ..... *Pitu B. Mirchandani and Susan H. Xu* 25

Analysis of Flexibility with Rationing for a Mix of Manufacturing Facilities ..... *Amiya K. Chakravarty* 43

Performance Modeling of a Manufacturing Cell with a Single Material Transporter: An Approximation ..... *Moshen A. Jafari* 63

Number 2

Dynamic Load Control Policies for a Flexible Manufacturing System with Stochastic Processing Rates.. *Abraham Tenenbaum and Abraham Seidmann* 93

A Pattern-Directed Approach to Flexible Manufacturing: A Framework for Intelligent Scheduling, Learning, and Control ..... *Michael J. Shaw* 121

Reliability Analysis of Flexible Manufacturing Systems ..... *Kanth Miriyala and N. Viswanadham* 145

Number 3

Economics and Success Factors of Flexible Manufacturing Systems: The Conventional Explanation Revisited .... *Jukka Ranta and Iouri Tchijov* 169

A Heuristic Method to Determine the Number of Pallets in a Flexible Manufacturing System with Several Pallet Types ..... *Phillipe Solot* 191

Models of Production Lines with Flexible Workstations ..... *Jose A. Ventura and Karim Tofang-Sazi* 217

Flexible Manufacturing Systems Evaluation: An Alternative Approach ..... *Itzhak Krinsky, Abraham Mehrez, G. John Miltenburg, and Buddy L. Myers* 237

Number 4

Flexibility in Manufacturing: A Survey ..... *Andrea Krasa Sethi and Suresh Pal Sethi* 263

A Knowledge-based System for the Strategic Control Level of Robots in Flexible Manufacturing Cells ..... *Vladan Devedžić* 303

Scheduling Parallel Machines with Major and Minor Setup Times..... *Robert J. Wittrock* 329
